

## YOU ARE INVITED

**The Forest Stewardship Council cordially invites you to a breakfast roundtable discussion at the Green Sports Alliance Summit.**

**Wednesday, July 1**

**7:30am - 8:30am**

**Room W192A at McCormick Place**

From office paper and hand towels to baseball bats and basketball courts, every organization uses forest products in their daily operations, food service, marketing and construction. As a member of the Green Sports Alliance Global Leadership Council, the Forest Stewardship Council is working to help teams, venues, leagues and companies protect forests by using FSC-certified products.

This session will focus on specific ways that professional and collegiate sports organizations can use FSC-certified products to help forests, people and wildlife. The discussion format will allow plenty of time for specific questions you may have.

Please join Lisa Morden (FSC-US Board Chair and Senior Director of Global Sustainability at Kimberly-Clark Corporation), along with Brad Kahn (FSC-US Communications Director) and Jenny Wood (FSC-US Policy & Standards Manager).

**RSVP or questions to Amelia Harris ([a.harris@us.fsc.org](mailto:a.harris@us.fsc.org)).**
