

FSC-Certified Papers

IMPORTANT - PLEASE READ:

This list provides users with an estimate of FSC-certified papers available in North America at the time of publication (current version - April 2018). It is for reference purposes only and is not comprehensive as FSC certificate holders self-report their FSC-certified paper availability. It should not be used for trademark approvals or verification purposes. Even if a product is listed below, you must verify that it meets FSC Chain of Custody (FSC-STD-40-004 v3-0) requirements. <https://ca.fsc.org/chain-of-custody.197.htm>

For some papers, you must specify to the paper merchant that you would like to purchase the FSC-certified grade since there may be both a certified and non-certified version of the same paper.

Only companies that are FSC Chain of Custody certified are allowed to place the FSC label on a certified product.

Don't see your papers listed? Or do your papers need to be updated?
